ABOUT US:

Established in December 2018, Jayceed Holdings has grown from its foundations into a specialised and respected logistics and equipment solutions provider, serving a diverse range of industries across South Africa. What began as a focused vision to deliver reliable, high-quality logistics services has evolved into a business with a proven track record, a growing fleet, and a reputation built on consistent performance and client trust.

Over the years, Jayceed Holdings has had the privilege of serving some of South Africa's leading blue-chip organisations, with operations spanning across five provinces. This national footprint is a testament to our operational capacity, our adaptability, and the confidence that our clients place in us to deliver – regardless of location or complexity.

Our approach to logistics is structured, professional, and client-centred. We have developed a robust operational framework that allows us to accommodate and manage the unique requirements of each client engagement, ensuring that the right resources, equipment, and expertise are deployed at the right time and in the right place. From bulk transport and earthmoving to equipment hire and site support services, we bring a comprehensive and integrated capability to every project we undertake.

Jayceed Holdings is also proud to be a major stakeholder in Consortia Solutions, a majority black-owned firm that shares our commitment to transformation, service excellence, and the economic empowerment of previously disadvantaged communities. This partnership further strengthens our broad-based black economic empowerment (BBBEE) credentials and reflects our genuine dedication to contributing to a more inclusive South African economy.

Jayceed Holdings is led by its founder and Chief Executive Officer, Mr Jappy Masangani, whose vision, leadership, and industry insight continue to drive the growth and direction of the business. Under his stewardship, Jayceed Holdings remains firmly committed to expanding its capabilities, deepening its client relationships, and delivering logistics solutions that make a meaningful difference to the operations of every client we serve..

WHO WE ARE:

MISSION

To be synonymous with excellence in the delivery of comprehensive logistics and equipment solutions – setting the benchmark for reliability, professionalism, and client satisfaction across every sector we serve.

VISION

- Critically applying sound logistics management principles in our day-to-day operations.
- Embracing new and improved tools and techniques to continuously enhance our service delivery.
- Identifying and developing exceptional logistics talent towards operational excellence.
- Fostering an entrepreneurial culture where individuals are empowered to innovate and grow.
- Building and expanding our strategic network of logistics expertise across South Africa and beyond.
- Establishing Jayceed Holdings as a trusted home for logistics professional development and growth.

AWARDS, CERTIFICATIONS & MEMBERSHIPS

NHBRC, CIDB, COIDA, BBB-EE, DOT-Sure Insurance, SAICA, CIPC and SARS.

WHY CHOOSE US:

At Jayceed Holdings, we are a comprehensive logistics and equipment solutions provider, built to serve the diverse operational demands of our clients. Here is what sets us apart:

OUR FLEET & EQUIPMENT

- Diverse and well-maintained fleet capable of handling a wide range of operational requirements
- TLBs for excavation, loading, and site work
- Tipper trucks for bulk material transport and site clearance
- Honey sucker trucks for waste and sanitation services
- Grass cutting tractors for vegetation and land maintenance
- All equipment is regularly serviced and maintained to the highest safety and performance standards

OUR SOLUTIONS & APPROACH

- Tailored logistics and equipment solutions designed around your specific operational needs
- Flexible service offerings spanning freight transport, equipment hire, and site support services
- Competitive and transparent pricing with no hidden costs
- Right-sized deployment of transport, equipment, and manpower for every project

OUR COMMITMENT TO QUALITY & RELIABILITY

- Strict adherence to industry standards and client specifications on every engagement
- Proactive risk identification and management to ensure uninterrupted operations
- Consistent on-time delivery and project execution within agreed budgets
- Dedicated teams focused on seamless service from mobilisation to completion

OUR COMMUNICATION & GOVERNANCE

- Clear and consistent communication with clients and stakeholders throughout every engagement
- Real-time progress updates and full operational visibility at every stage
- Meticulous documentation, record keeping, and compliance management
- Careful procurement of all goods and services to meet time, cost, and quality requirements

“At Jayceed Holdings, every resource we deploy and every service we render is driven by one purpose – to deliver integrated, reliable solutions that power your operations and exceed your expectations.”

PLANT & LOGISTICS SERVICES:

WATER TANKS (10 000L)

- Supply and transport of potable (clean) water to construction sites, events and remote locations
- Dust suppression on roads, mines and construction areas
- Water delivery for agriculture, landscaping and emergency supply
- Support for tank filling and site cleaning operations

TIPPER TRUCKS - 4 TON DISPOSAL

- Transport and delivery of building materials (sand, stone, bricks)
- Ideal for small to medium construction projects and tight-access sites
- Site clean-ups and debris removal
- Flexible short-distance haulage and general transport

TIPPER TRUCKS - 10m²

- Bulk transport of sand, gravel, soil, coal and aggregates
- Earthmoving and excavation support
- Removal of construction and demolition waste
- Reliable hauling for large construction and mining projects

TLB (4x4 Tractor Loader Backhoe)

- Excavation, trenching and backfilling services
- Loading and material handling on construction sites
- Site preparation and landscaping
- Suitable for rough terrain and remote areas

HONEY SUCKER TRUCKS (12 000L Septic Tank)

- Septic tank pumping and cleaning
- Removal and safe disposal of liquid waste and sludge
- Services for residential, commercial and industrial facilities
- Emergency response for sewage spills and blockages

CHERRY PICKER TRUCKS (14m-20m Boom Lift)

- Working-at-height solutions for maintenance and installations
- Streetlight, signage and electrical maintenance
- Tree trimming and building maintenance
- Safe access for construction and inspection work

SEWER JETTING TRUCKS (1000L)

- High-pressure drain and sewer cleaning
- Removal of blockages, grease and debris
- Preventative maintenance of pipeline and drainage systems
- Rapid response for emergency sewer backups

HYUNDAI H100 TRUCKS

- Light delivery and courier services
- Transport of tools, equipment and small loads
- Ideal for urban logistics and last-mile delivery
- Flexible support for daily business transport needs

TRACTORS (With Slashers For Grass Cutting)

- Large-area grass cutting and vegetation control
- Maintenance of roadsides, farms, estates and industrial sites
- Clearing of overgrown land and open fields
- Support for municipal maintenance and property management
- Efficient, cost-effective solution for routine grounds maintenance

OUR APPROACH TO LOGISTICS:

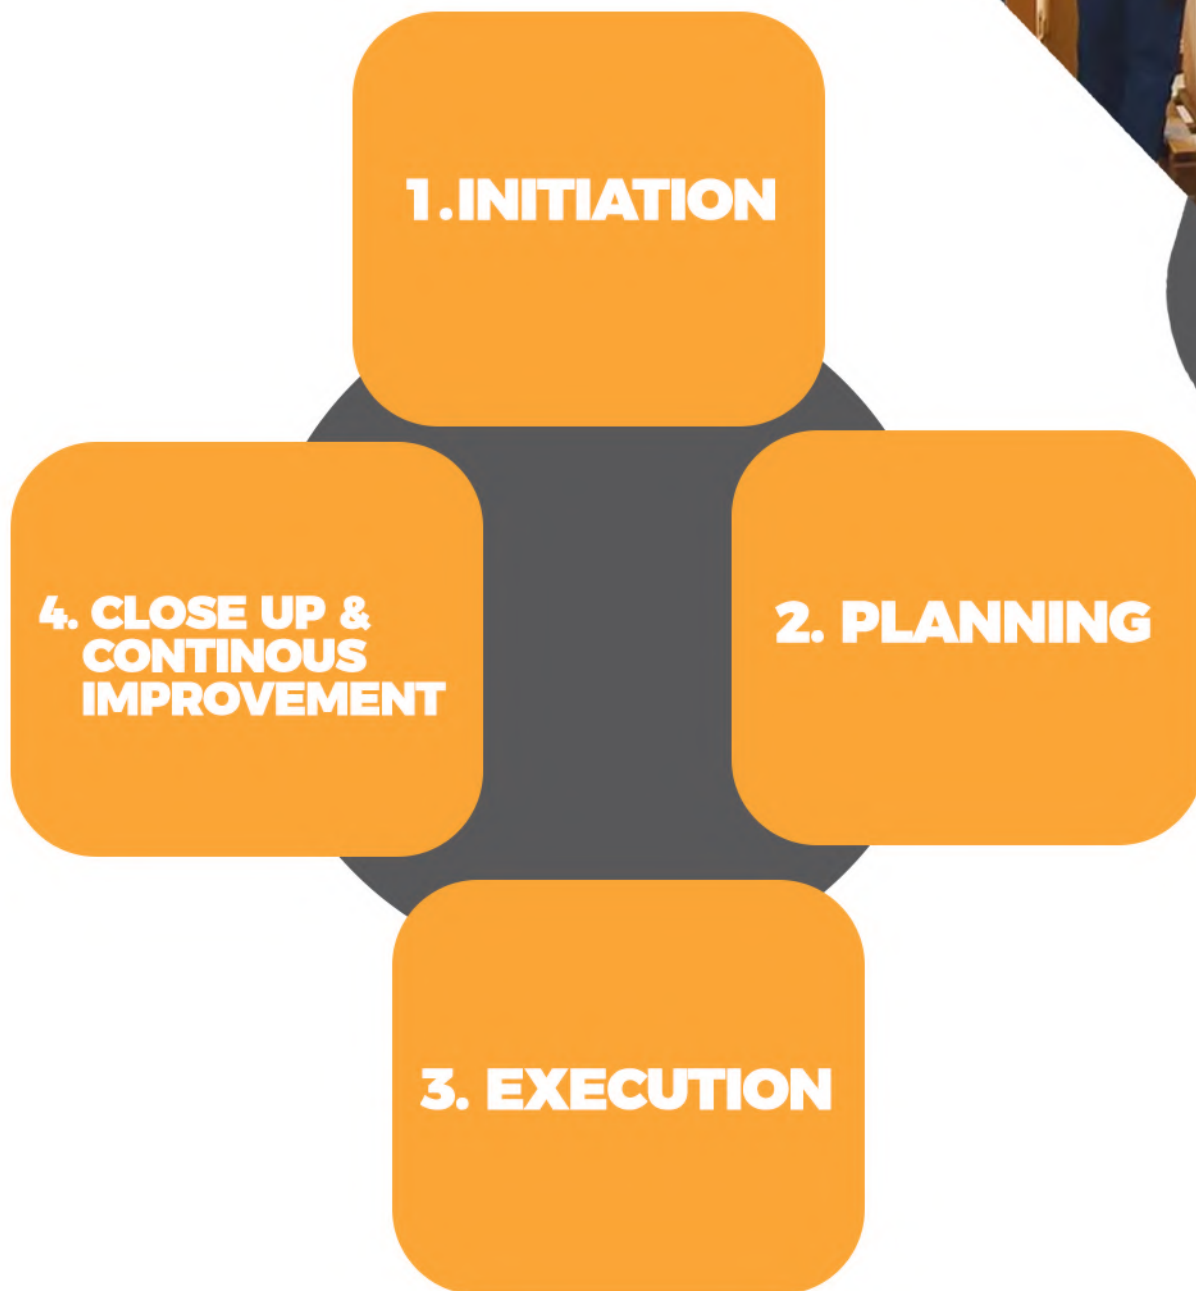

At our company, we are committed to delivering reliable, efficient and cost-effective logistics solutions. Our approach is built on strong planning, experienced personnel, modern equipment and continuous improvement. We focus on building long-term partnerships by consistently meeting client expectations and delivering projects safely, on time and within budget.

OUR KEY PRINCIPLES

- Maintain a dedicated and experienced core operations team to ensure service consistency and accountability.
- Structure each project around client requirements, timelines and operational needs.
- Scale our capacity with qualified drivers, operators and specialised partners when required.
- Apply best practices in fleet management, route optimisation, safety and compliance.
- Drive efficiency, cost savings and continuous operational improvement for every client.

POLICIES:

QUALITY POLICY

At Jayceed Holdings, quality is not simply a standard we meet – it is a way of life embedded in everything we do. We believe that quality is the direct result of good management, disciplined operations, and a relentless commitment to getting the right things done, the right way, every time.

We recognise that there is always a better way to serve our clients, and we are driven by a culture of continuous improvement across all our logistics and equipment services. Whether managing a fleet deployment, executing a transport contract, or providing specialised equipment hire, we optimise the use of every resource at our disposal to deliver outcomes that are efficient, reliable, and of the highest standard.

Meeting our clients' requirements is our minimum performance criteria – exceeding their expectations is our goal.

SAFETY, HEALTH AND ENVIRONMENTAL POLICY

Jayceed Holdings is fully committed to maintaining a clean, safe, and healthy environment for our employees, contractors, clients, and the communities in which we operate. The nature of our work – spanning heavy fleet operations, equipment hire, excavation, waste management, and land maintenance – demands the highest levels of safety awareness and environmental responsibility at all times.

QUALITY POLICY

Every employee and contractor operating under the Jayceed Holdings banner carries a personal duty to prevent harm to themselves, to their colleagues, to the public, and to the environment. This responsibility is non-negotiable and forms the foundation of how we conduct our operations daily.

Jayceed Holdings will at all times comply with all applicable legislation, regulations, and client requirements as the minimum benchmark for our Safety, Health, and Environmental practices. We will regularly review this policy, our operational practices, and our performance records to ensure ongoing improvement and full regulatory compliance

At Jayceed Holdings, a safe operation is a successful operation – and we will never compromise on either.

FLEET & EQUIPMENT MAINTENANCE POLICY

All fleet and equipment undergoes scheduled preventative maintenance, routine safety inspections, and periodic compliance checks in accordance with manufacturer guidelines and applicable regulatory requirements. No vehicle or piece of equipment is deployed on any operation unless it has been confirmed as safe, roadworthy, and fit for purpose. We invest continuously in the upkeep of our assets to ensure maximum reliability, minimum downtime, and the safety of our operators, clients, and the public.

OUR TEAM & EXPERIENCE:

At Jayceed Holdings, our greatest asset is our people. Our team is dynamic, experienced, and built to adapt – capable of adjusting to the unique needs of each client with respect to geography, operational demands, available resources, and industry-specific requirements. We understand that no two clients are the same, and our team is structured to respond with flexibility, professionalism, and the right expertise at every level.

Our core operations team comprises experienced logistics managers, fleet supervisors, and equipment specialists, supported by dedicated personnel in cost management, compliance, administration, and client liaison. This integrated team structure ensures that every aspect of your logistics requirement – from planning and mobilisation through to execution and close-out – is managed with precision and accountability.

Jayceed Holdings brings hands-on experience across a broad range of logistics and equipment service offerings, including bulk material transport, earthmoving and excavation support, waste and sanitation services, land and vegetation maintenance, equipment hire, and general freight logistics. Our exposure to projects of a repetitive and specialised nature has positioned us to package comprehensive, end-to-end solutions tailored to the specific demands of each client and sector we serve.

We have successfully delivered standalone services as well as fully integrated logistics solutions across multiple industries. Whether mobilising a single piece of equipment for a short-term assignment or managing a complex, multi-phase logistics operation, our team has the experience, tenacity, and operational depth to deliver results. Some of our most valued client relationships have grown from being called in to stabilise and turn around operations that were off track – and we take pride in our ability to assess a situation quickly, implement the right solution, and drive it through to successful completion.

“At Jayceed Holdings, we do not simply provide a service – we become an extension of your team, fully committed to your operational success from start to finish.”
